

HEALTH INFORMATION FOR GYPSIES AND TRAVELLERS

**FRIENDS,
FAMILIES &
TRAVELLERS**

What age should you get a screening?

You can have a screening if you are 25 and above.

What to look out for?

- Bleeding
- Pain in your stomach or lower back
- Any changes that are unusual

Sometimes there are no signs at all so it's important to get your screening!

Why should I get screening?

To keep you healthy for when you have a family and to catch anything early.

This could save your life.

If you're worried about something, book an appointment with your GP.

If you've not been offered screening and aren't with a GP, call **FFT** on **01273 234 777**.

It will usually be a woman doing the test, but ask when booking to check. You can also take a friend with you.

For more information, scan the QR code.
